in analytical retellings of biblical tales about women *nehama aschkenasy* seeks to demonstrate how recurring situations dilemmas and modes of conduct represent the politics of women's realities in premodern civilization she draws on literary critique and behavioural and social theories

escape from oppression is a true story set against the backdrop of Germany in the 1930s and 1940s. Olga's experiences are unique to those who happened by chance to live in the part of the country that became East Germany and her story tells how she eventually escaped to find freedom in the West.

Political Escapes explores daring attempts to break free from imprisonment and oppressive regimes, revealing the profound impact these acts have had on world history and political landscapes. The book examines the motivations, planning, and techniques used by individuals risking everything for freedom, highlighting how these escapes often serve as potent symbols of resistance. For example, successful escapes have been known to galvanize popular movements and reshape the balance of power, demonstrating the significant role individual acts of defiance play in influencing broader political outcomes. The book progresses through three key sections: it begins by defining political escapes and exploring the psychology of those who undertake such perilous journeys; it then presents detailed case studies from various historical periods, focusing on escapes from prisons, exile, and wartime, and analyzes the strategies and tactics employed; finally, it examines the long-term consequences of these escapes, assessing their impact on political ideologies, social movements, and international relations by drawing from primary sources and combining historical analysis with insights from political science and criminology. The book offers a fresh perspective on well-known historical events.

first ed published under title *Challenging Oppression*

In this original and wide-ranging study, Gabriel Piterberg examines the ideology and literature behind the colonization of Palestine from the late nineteenth century to the present, exploring Zionism's origins in Central and Eastern European nationalism and settler movements. He shows how its texts can be placed within a wider discourse of Western colonization, revisiting the work of Theodor Herzl and Gershom Scholem, Anita Shapira, and David Ben-Gurion, and bringing to light the writings of lesser-known scholars and thinkers influential in the formation of the Zionist myth. Piterberg breaks open prevailing views of Zionism, demonstrating that it was in fact unexceptional, expressing a consciousness and imagination typical of colonial settler movements shaped by European ideological currents and the realities of colonial life. Zionism constructed its own story as a unique and impregnable one in the process, excluding the voices of an indigenous people: the Palestinian Arabs.

What is a Civic Nation? A Republic of Shared Dreams is a profound inquiry into the origins, contradictions, and future of civic nationalism. As the second volume in Levent Çağlar's philosophical-political series *The Life of Nations*, it carries forward a rigorous intellectual journey that began with *What is a Nation?*, offering readers an enriched understanding of how national identities are constructed, contested, and reimagined in modern society. While many discussions on nationalism revolve around ethnicity, language, or state sovereignty, Çağlar challenges these assumptions by turning the focus toward civil society, moral

agency and emotional solidarity at a time when authoritarian populism and ethnonationalist fervor dominate political discourse across the globe what is a civic nation reclaims nationalism from its most dangerous impulses and proposes a revolutionary alternative rooted in dignity freedom and shared humanity drawing on political theory sociology history and moral philosophy the book traces how civic nations emerge not through coercive power or mythologized pasts but through shared ideals ethical institutions and democratic participation it explores the historical evolution of classical nations the influence of capitalism and industrial society and the transformative power of enlightenment thought yet this is no nostalgic return to liberal universalism Çağlar confronts head on the contradictions of civic life the tension between individual freedom and collective belonging the suppression of moral diversity by state institutions and the fragility of democratic values in a market driven world one of the book s most powerful contributions is its insistence on the role of emotion in nationhood far from reducing nationalism to cold political structures Çağlar treats love memory longing and fear as core to the human condition and central to the formation of nations civic nationalism in his vision is not a sterile contract but a living moral community it is built not just on legal citizenship but on mutual recognition moral responsibility and the freedom to dissent the book also provides a critical examination of regimes that have weaponized nationalism for authoritarian control offering türkiye as a central case study it critiques idealist notions of national identity imposed by the state and explores how historical memory and cultural pluralism are manipulated or erased in service of political power through this lens Çağlar exposes the tragic consequences of conflating state legitimacy with national belonging yet what is a civic nation is not merely a work of critique it is a visionary proposal it offers a new language for thinking about national community one that is inclusive without being homogenizing emotional without being fanatical and morally grounded without being dogmatic it challenges readers to imagine a nation not as an inheritance of blood but as a republic of shared dreams a space where dignity justice and difference can coexist in creative tension for academics students policymakers and general readers alike this book is both a philosophical meditation and a political manifesto it dares to ask in a fragmented world can we still imagine nations as instruments of human liberation rather than domination can we reclaim the moral soul of citizenship and build societies that honor both the individual and the collective levent Çağlar writes with both analytical precision and poetic depth his prose weaves abstract theory with lived experience systemic critique with emotional insight with clarity passion and courage he invites us into a conversation not just about what nations are but what they might yet become in an era where walls are rising divisions are deepening and truth is contested what is a civic nation offers a bold necessary and hopeful intervention it is a book for our time and a blueprint for a more humane future
